

DENTAL IMPLANT CONTINUED EDUCATION LIVE PATIENT PROGRAM

Dear Doctor,

I hope this email finds you well. Below is a summary, which covers most questions regarding our Dental Implant International Live Patient Program.

PROGRAM OVERVIEW

This program is funded by ITC CARES, a 501(c)(3) tax-exempt nonprofit organization. All costs associated with participation in this program are tax deductible donations that are directly used to fund this program. This program is specifically designed to teach dental practitioners how to successfully approach and treat a wide range of dental implant cases on Live Patients.

UPON COMPLETION, YOU WILL BE ABLE TO:

- Provide diagnosis, prognosis and properly sequenced comprehensive treatment plans.
- Apply the recommended guidelines for a safe and appropriate dental implant placement.
- Perform basic, intermediate and advanced surgical implant placements with maximum confidence and competency.
- Perform comprehensive examinations, collect clinical data, and document the patient's dental and medical condition.

WHY ITC SEMINARS?

- We teach only inside Universities and authorized Dental Facilities.
- Our patients are guaranteed to be 100% restored.
- Our teaching ratio is 1:4 for optimum learning & dedication.
- ITC Programs is worth 40 CE hours and meets the CE requirements by the ADA, AGD, Dental Board of California, and Dental Board of Florida.
- We ensure scientific integrity and are free of commercial bias.
- All dental implant materials fulfill all international and local state, and government requirements to be used on live patients.

SURGERIES PROMOTED

The following are the procedures you will perform in our Dental Implant Live Program:

- Incision and Flap Design
- Step by Step Implant Placements
- Extractions
- Socket Preservation
- Immediate Implant placement
- Growth factors (PRP/PRF/IPRF-sticky bone) preparation techniques
- Suturing Techniques
- Bone Grafting

MAXIMIZE YOUR EDUCATION

Upon registration, you will receive an online surgical survey that evaluates your experience and skills in oral implantology. Within the same survey, you will also have an opportunity to fill out a checklist with all of the different types of procedures that you can perform during the live patient program based on your skills and experience. Based on the results of the online surgical survey, our instructors will select the specific cases/patients for you.

WHAT TO EXPECT ON THIS SEMINAR?

You will encounter various kinds of dental cases and surgical situations. Therefore, the number of procedures you will perform will depend on your skills and past surgical experience as evaluated by our instructors via our online surgical experience.

Every morning before the program starts, we have a short lecture and a meeting with all the doctors to evaluate and review the treatment plan, and medical history for the patients that you will be treating that day. In that moment, with the X-Rays in hand, we evaluate the case and decide the best treatment plan and approach for each patient.

FACULTY

You will have the advantage of being trained by oral/maxillofacial surgeons and Doctors of Dental Surgery. Our faculty has been involved in dental humanitarian missions and academic exchanges for more than 15 years. Please click [HERE](#) to learn more about our Faculty.

WHAT WE WILL NEED FROM YOU:

- Picture of your Dental License
- Fill out a Registration Form
- Fill out our survey to determine your past experience and skills.
- Total CE hours completed prior to this program (Accredited by ADA, AGD or Dental Board)
- Bring your personal Loupes
- CV or Resume (years in dental field)
- Completion of course evaluation to determine eligibility in our live patient programs.

Please do not hesitate to contact me. I will be glad to answer all of your questions.

I look forward to speaking with you.

Best Regards,

Alex Lopez
