

ITC Seminars Selection/Offers of Admission

ITC Seminars' Advisory Committee, composed of members of the faculty, select the most highly qualified applicants to receive offers of admission. All admissions decisions are made by the Committee. Offers of admission are made on a rolling basis until the course is filled. Applicants are notified via email once the admissions decision has been made so please ensure that your email address remains current.

The admission decision will be based upon your performance in previous academic programs, the corresponding quality of those programs, competitive resumes, and performance as a dental practitioner. Personal factors, as evidenced by outreach efforts, extracurricular and leadership activities are also key factors.

Admission Requirements

Dental Implant Live Patient Program

1. *Resume or CV*

Resumes must include any prior CE activity completion, name and type of CE course(s), and the total number of Dental CE hours/credits earned prior to applying for admissions to ITC Seminars Live Patient Program. CE courses are recommended to be ADA or AGD certified or approved by the Dental Board of the State granting your dental licensure.

2. *Copy of valid Dental License*

3. *Copy of valid CPR certification*

4. *Applicants are required to complete the online surgical experience survey (Link to [Surgical Experience Survey](#))*

5. *Applicants are required to provide evidence/proof of experience (if any)*

a. Applicants who have placed:

1. 0 implants, please refer to section 5.b. and 5.c.
2. 1-10 implants must submit 1 case and certification and verification of participation in a past academic or CE course, program, or seminar in oral implantology (must include total number of CE hours/credits).
3. 11-20 implants must submit 2 cases.
4. 21+ or more implants must submit 5 cases.

Fully document the required number of cases. Documentation must include patient slides, pre and post-operative x-rays and clinical photographs of final cases, scans, pre-operative evaluation and planning forms, treatment consent forms, etc.

OR

- b. Applicants who have no experience in placing Dental Implants on live patients must submit verification of participation in a minimum of 16 CE hours of Dental Implant Training. Dental Implant training must have included a hands-on workshop on dental implant placement on models. CE provider(s) must be certified by the ADA, AGD, or Dental Board of the State granting dental licensure.

OR

- c. Applicants who have neither experience in placing dental implants or verification of participation in a past dental implant CE course are *highly recommended* to complete **ITC Seminars' Human Specimen Dental Implant Hands-On-Workshop** or complete a minimum of 16 CE hours of dental implant placement training with a recognized CE provider before applying to ITC Seminars' Dental Implant Live Patient Program. Nevertheless, applicants without any experience in dental implant placement or previous dental implant CE training *are allowed* to apply to this program and will be evaluated by our Advisory Committee for offers of admission.

All admission application requirements and materials must be submitted to ITC Seminars. There are three ways to submit your application: email to itcgolive@gmail.com, fax to (949) 460-0042 or mail to the ITC Seminars Central Office. Applicants are encouraged to apply for admission at least 2 months before the start of the Live Patient Program. Applicants are required to send all admission requirements together at the same time. Applying early can help you avoid delays, allow for timely processing, and improve your chances of being admitted to the live patient program. Applicants will be notified of their admission status within 1 week of submitting their complete application.

For candidates who receive an offer of admission, a program registration form will be emailed to the applicant in order to reserve their seat in the CE course.
