

## All-On-4 with Immediate Conversion Human Specimen Hands-On Workshop

### COURSE OVERVIEW:

This 2-day CE course is specifically designed for dental practitioners who want to expand their knowledge and enhance their comprehensive surgical skills in All-On-4, and All-On-6 dental implant procedures. Participate in multimedia lectures and surgical hands-on workshops where you will learn how to: place dental implants in the All-On-4 and All-On-6 configuration and perform the step-by-step conversion of the full upper and lower denture into an immediate load on human specimens.

### UPON COMPLETION, YOU WILL BE ABLE TO:

- Apply the recommended, evidence-based guidelines for a safe and appropriate full arch implant surgery with immediate loading.
- Learn how to properly place the implants in the All-on-4<sup>®</sup> and All-on-6<sup>®</sup> configuration.
- Learn how to take an open tray and closed tray impressions for the All-on-4<sup>®</sup> and All-on-6<sup>®</sup> prosthetic solution.
- Learn how to do the bite registration.
- Learn Prosthesis design.
- Learn Biomechanics for the All-on-4<sup>®</sup> and All-on-6<sup>®</sup>.
- Learn the All-on-4<sup>®</sup> and All-on-6<sup>®</sup> occlusion.
- Learn how to fabricate provisional and permanent prosthetic options.
- Learn how to deal with possible All-on-4<sup>®</sup> and All-on-6<sup>®</sup> complications.
- Learn hygiene requirement and protocol for long-term success.
- Provide diagnosis, prognosis and properly sequenced comprehensive treatment plans.
- Perform comprehensive examinations, collect clinical data, and document the patient's dental and medical condition.

### WHY ITC SEMINARS?

- We teach only inside Universities and Approved Dental Facilities.
- All of ITC CE Programs are approved by the ADA (CERP Certified), AGD (PACE Certified), Dental Board of California, and Dental Board of Florida.
- We ensure scientific integrity and are free of commercial bias.

## PACKAGE INCLUDES:

- Unlimited implant supply
- Fully equipped dental stations
- Bone grafting material
- Surgical instruments
- Surgical Kits
- Lunch
- 100% Participation
- 16 CE Credits

## FACULTY:

You will have the advantage of being trained by a faculty that has overseen over 25,000 dental implant procedures (oral/maxillofacial surgeons and Implant Specialists). Our faculty has been involved in dental humanitarian missions for more than 15 years. In this program you will be instructed by faculty from the US, Brazil and UK. Please click [HERE](#) to learn more about our Faculty.

## SCHEDULE:

The program is 2 full days. The first day consists of Lectures and Hands-On-Workshops on suturing techniques and dental implant training on models. The second day of the course is dedicated to Surgery on specimens.

## Module One: Day 1

### LECTURES

#### **WORKSHOP: Hands-On Models**

- Step by step implant placement
- Suturing techniques

## Module Two: Day 2

#### **WORKSHOP: Surgical Hands-On Specimen**

- Tilted Implant Placement
- All-on-4<sup>®</sup>, All-on-6<sup>®</sup>
- Step by step conversion of the full upper and lower denture into an immediate load
- Incision and Flap Design
- Growth factors (PRP/PRF/IPRF-sticky bone) preparation techniques
- Description of instruments and equipment

## WHAT WE WILL NEED FROM YOU:

- Fill out the Course Registration Form (request the registration form via email at <https://itcseminars.com/contact/>)
- Bring your personal Loupes

Please do not hesitate to contact me. I will be glad to answer all your questions.
