

SINUS LIFT LIVE PATIENT PROGRAM

Dear Doctor,

I hope this email finds you well. Below is a summary, which covers most questions regarding our Sinus Lift International Live Patient Program.

PROGRAM OVERVIEW

This program is specifically designed to teach dental practitioners how to successfully approach and treat a wide range of advanced implant/bone grafting surgical procedures on live patients. This program is funded by ITC CARES, a 501(c)(3) tax-exempt nonprofit organization. All costs associated with participation in this program are tax deductible donations that are directly used to fund this program.

UPON COMPLETION, YOU WILL BE ABLE TO:

- Provide diagnosis, prognosis and properly sequenced comprehensive treatment plans.
- Apply the recommended guidelines for a safe and appropriate dental implant placement.
- Perform advanced surgical implant procedures (Sinus Lifts) with maximum confidence and competency.
- Perform comprehensive examinations, collect clinical data, and document the patient's dental and medical condition.
- Understand the indications, guidelines and surgical protocols for sinus bone grafting: lateral and crestal approach.
- Perform sinus bone grafting with delayed and simultaneous implant placement.
- Understand the anatomy, biology and wound healing of sinus bone grafting.
- Recognize, manage and prevent intraoperative and postoperative complications associated with sinus bone grafting

WHAT TO EXPECT ON THIS SEMINAR?

You will encounter various kinds of advanced dental implant, sinus lift, and surgical situations. The number of procedures you will perform will depend on your skills and past surgical experience as evaluated by our instructors via your admissions application. Nevertheless, Doctors are expected to see at least 2 patients per day.

Every morning before the program starts, we have a short lecture and a meeting with all the doctors to evaluate and review the treatment plan for the patients that you will be treating that day. In that moment, with the X-Rays in hand, we evaluate the case and decide the best treatment plan and approach for each patient.

FACULTY

You will have the advantage of being trained by oral/maxillofacial surgeons and Implant Specialist. Our faculty has been involved in dental humanitarian missions, academic exchanges, and specialized in the field of oral implantology for more than 15 years. Please click [HERE](#) to learn more about our Faculty.

SCHEDULE

The program is 4 full days. The first day will consist of Lectures and hands on workshops on suturing techniques and dental implant placement protocol and drill sequencing. The following 3 days are dedicated to Live Patient Surgery. We require that you arrive to the course destination one day before the start of the course.

HOW TO APPLY:
