

DENTAL IMPLANT RESTORATION AND DIGITAL WORKFLOW LIVE PATIENT COURSE

COURSE OVERVIEW

This 4-day CE course is specifically designed to teach dental practitioners how to successfully restore single and full arch dental implants on live patients under our faculty supervision. In this course, participants will master the 3D digital workflow by using the latest digital dental implant technology to achieve the best possible outcome in single and full arch dental implant cases. During this program you will utilize 3D intraoral scanners and 3D printers to efficiently design and deliver temporary and permanent prostheses on live patients. This program is worth 40 CE Units certified by the ADA (CERP Certified), AGD (PACE certified), Dental Board of California, and Dental Board of Florida.

UPON COMPLETION, DOCTORS WILL BE ABLE TO:

- Restore dental implants in a safe and predetermined manner on live patients.
- Perform the Step-by-step conversion of the full upper and lower denture into an immediate load.
- Know about the different types of implant abutments and components available, and how to use them to fabricate implant-supported restorations such as crowns, bridges, and dentures.
- Take open tray and closed tray impressions for the full arch prosthetic solution.
- Understand bite registration.
- Understand prostheses design.
- Understand the biomechanics for the Full Arch Prostheses.
- Understand the Full Arch prostheses occlusion.
- Know how to fabricate provisional and permanent prosthetic options.
- Know how to deal and solve possible dental implant prosthetic complications.
- Know the hygiene requirement and protocol for long-term success
- Fabricate provisional and permanent prosthetic options using the digital 3D ecosystem.
- Master the Digital Workflow and use of 3D intraoral scanners and 3D printers to design and print surgical guides and temporary and permanent restorations.
- Provide diagnosis, prognosis and properly sequenced comprehensive treatment plans using digital 3D hardware and software.
- Learn about the latest in digital technology; from 3D-printing of surgical guides and temporaries to scan bodies and final impressions.

WHY ITC SEMINARS?

- We teach only inside Universities and Approved Dental Facilities.
- All of ITC CE courses are approved by the ADA (CERP Certified), AGD (PACE Certified), Dental Board of California, and Dental Board of Florida.
- We ensure scientific integrity and are free of commercial bias.

PACKAGE INCLUDES:

- Dedicated dental assistants
- Fully equipped dental stations
- Sterile setup and protocol
- Surgical instruments
- Surgical Kits
- Digital X-Rays
- 100% Participation
- 24 CE Credits

WHAT TO EXPECT ON THIS PROGRAM?

You will encounter various kinds of prosthetic cases that range from single and multiple implants, to full arch dental implant cases. Every morning before the program starts, participants will attend a short lecture to evaluate and review the treatment plan for the patients that will be restored that day. In that moment, with the X-Rays in hand, we evaluate the case and decide the best prosthetic option and approach for each patient.

FACULTY

You will have the advantage of being trained by oral/maxillofacial surgeons and Implant Specialist. Our faculty has been involved in dental humanitarian missions, academic exchanges, and specialized in the field of oral implantology for more than 15 years. Please click [HERE](#) to learn more about our Faculty.

SCHEDULE

The course is 4 full days. The first day will consist of Lectures and hands-on workshops on the 3D digital workflow where participants will learn how to utilize 3D intraoral scanners and 3D printers to design and print surgical guides and temporary and permanent restorations. The following 3 days are dedicated to Live Patient dental implant restoration. We require that you arrive to the course destination one day before the start of the course.

HOW TO REGISTER

Please submit all the following items via email to itcgolive@gmail.com or fax to 949-460-0042:

- Picture of your Dental License
- CV or Resume (years in dental field)
- Valid CPR certification
- Fill out the CE Course Registration Form (please request your course registration form by emailing itcgolive@gmail.com and indicating the course date you are interested in participating in).

Please do not hesitate to contact me. I will be glad to answer all your questions.

I look forward to speaking with you.

Best Regards,

Alex Lopez
