

## DENTAL IMPLANT RESTORATION LIVE PATIENT COURSE

### **COURSE OVERVIEW**

This 4-day CE course is specifically designed to teach dental practitioners how to successfully restore single and full arch dental implants on live patients under our faculty supervision. This program is worth 40 CE Units certified by the ADA (CERP Certified), AGD (PACE certified), Dental Board of California, and Dental Board of Florida.

### **UPON COMPLETION, DOCTORS WILL BE ABLE TO:**

- Restore dental implants in a safe and predetermined manner on live patients.
- Perform the Step-by-step conversion of the full upper and lower denture into an immediate load.
- Know about the different types of implant abutments and components available, and how to use them to fabricate implant-supported restorations such as crowns, bridges, and dentures.
- Take open tray and closed tray impressions for the full arch prosthetic solution.
- Understand bite registration.
- Understand prostheses design.
- Understand the biomechanics for the Full Arch Prostheses.
- Understand the Full Arch prostheses occlusion.
- Know how to fabricate provisional and permanent prosthetic options.
- Know how to deal and solve possible dental implant prosthetic complications.
- Know the hygiene requirement and protocol for long-term success

### **WHY ITC SEMINARS?**

- We are the only Dental CE provider in the world to have academic exchange partnerships with International Universities. All of ITC Seminars' Live Patient Programs are taught and led inside Universities.
- Thanks to our joint partnership with International Universities, all course participants receive a provisional temporary dental license to be able to treat patients internationally and for protection from any liability. We are the only Dental CE Provider to provide course participants with legal authorization and a temporary license to practice dentistry internationally.

- Our International Live Patient Programs are limited to only 6 participants for maximum training, supervision, guidance, and course participation.
- Our teaching ratio is 1:2 for optimum learning & dedication.
- Our patients are guaranteed to be 100% restored. All course participants will receive a follow up report that includes images of all the cases they treated during the course fully restored.
- This Live Patient Program is worth 40 CE hours and is certified by the ADA (CERP Certified), AGD (PACE certified), Dental Board of California, and Dental Board of Florida.
- All participants will be evaluated by our faculty throughout the entirety of the program to highlight and reinforce growth edges and ensure maximum confidence and competence in dental implant treatment planning and implant surgery upon graduating from the program.
- We ensure scientific integrity and are free of commercial bias.
- All dental implant materials and components fulfill all international, local, state, and government requirements to be used on live patients.

### PACKAGE INCLUDES:

- Dedicated dental assistants
- Fully equipped dental stations
- Sterile setup and protocol
- Surgical instruments
- Surgical Kits
- Digital X-Rays
- 100% Participation
- 40 CE Credits

### WHAT TO EXPECT ON THIS PROGRAM?

You will encounter various kinds of prosthetic cases that range from single and multiple implants, to full arch dental implant cases. Every morning before the program starts, participants will attend a short lecture to evaluate and review the treatment plan for the patients that will be restored that day. In that moment, with the X-Rays in hand, we evaluate the case and decide the best prosthetic option and approach for each patient.

### FACULTY

You will have the advantage of being trained by oral/maxillofacial surgeons and Implant Specialist. Our faculty has been involved in dental humanitarian missions, academic exchanges, and specialized in the field of oral implantology for more than 15 years. Please click [HERE](#) to learn more about our Faculty.

## **SCHEDULE**

The course is 4 full days. The first day will consist of Lectures. The following 3 days are dedicated to Live Patient dental implant restoration. We require that you arrive to the course destination one day before the start of the course.

## **HOW TO REGISTER**

Please submit all the following items via email to [itcgolive@gmail.com](mailto:itcgolive@gmail.com) or fax to 949-460-0042:

- Picture of your Dental License
- CV or Resume (years in dental field)
- Valid CPR certification
- Fill out the CE Course Registration Form (please request your course registration form by emailing [itcgolive@gmail.com](mailto:itcgolive@gmail.com) and indicating the course date you are interested in participating in).

Please do not hesitate to contact me. I will be glad to answer all your questions.

I look forward to speaking with you.

Best Regards,

**Alex Lopez**
