

## FULL ARCH IMPLANT SURGERY LIVE PATIENT PROGRAM

### PROGRAM OVERVIEW

This comprehensive, 4-day live patient course is designed to provide participants with a complete mastery of full arch implant surgery, covering everything from foundational skills to advanced techniques. Throughout this intensive course, participants will perform **Full Arch/Full Mouth** dental implant surgeries under the guidance of implant experts, including oral and maxillofacial surgeons and implant specialists who have over 3 decades of dental implant surgical experience. This program is funded by ITC CARES, a 501(c)(3) tax-exempt nonprofit organization. All costs associated with participation in this program are tax deductible donations that are directly used to fund this program.

### UPON COMPLETION, YOU WILL BE ABLE TO:

- Apply the recommended, evidence-based guidelines for a safe and appropriate full arch implant surgery.
- Properly place the implants in the Full Arch configuration.
- Perform the Step-by-step conversion of the full upper and lower denture into an immediate load
- Take open tray and closed tray impressions for the Full Arch prosthetic solution.
- Understand the bite registration.
- Understand Prostheses design.
- Understand the biomechanics for the Full Arch procedure.
- Understand the full arch dental implant occlusion.
- Know how to fabricate provisional and permanent prosthetic options.
- Know how to deal with possible full arch implant complications.
- Understand hygiene requirement and protocol for long-term success.
- Provide diagnosis, prognosis and properly sequenced comprehensive treatment plans.
- Perform comprehensive examinations, collect clinical data, and document the patient's dental and medical condition.

### WHY ITC SEMINARS?

- ITC Seminars is the only Dental CE provider in the world to have academic exchange partnerships with International Universities. All of ITC Seminars' Live Patient Programs are taught and led inside universities.

- Thanks to our joint partnership with International Universities, all course participants receive a provisional temporary dental license to be able to treat patients internationally and for protection from any liability. We are the only Dental CE Provider to provide course participants with legal authorization and a temporary license to practice dentistry internationally.
- Our International Live Patient Programs are limited to only 6 participants for maximum training, supervision, guidance, and course participation.
- Our teaching ratio is 1:2 for optimum learning & dedication.
- Our patients are guaranteed to be 100% restored. All course participants will receive a follow up report that includes images of all the cases they treated during the course fully restored.
- This Live Patient Program is worth 40 CE hours and is certified by the ADA (CERP Certified), AGD (PACE certified), Dental Board of California, and Dental Board of Florida.
- All participants will be evaluated by our faculty throughout the entirety of the program to highlight and reinforce growth edges and ensure maximum confidence and competence in dental implant treatment planning and implant surgery upon graduating from the program.
- We ensure scientific integrity and are free of commercial bias.
- All dental implant materials and components fulfill all international, local, state, and government requirements to be used on live patients.

| • Sterile setup and protocol     | • 40 CE Credits        |
| • Piezo Handpiece                | • Lunch for 4 days     |
| • Bone grafting material         | • Local Transportation |
| • Surgical instruments           |                        |

#### SURGERIES PROMOTED

The following are the procedures you will perform in our Full Arch Implant Surgery with Immediate Loading Live Program:

- Incision and Flap Design
- Full Arch/Full Mouth dental implant surgery
- Tilted Implant Placement
- Bone Grafting Techniques
- Growth factors (PRP/PRF/IPRF-sticky bone) preparation techniques

#### WHAT TO EXPECT ON THIS PROGRAM?

You will encounter various kinds of full arch cases and surgical procedures. All patients are preselected, screened, and evaluated in advance for each course participant. Our Full Arch Implant Surgery course is designed to help you master the essential foundations of

full arch procedures, from incision and flap design to implant placement and suturing. With full hands-on training, you will be guided through each critical step, ensuring you develop a comprehensive understanding of the skills required for successful full arch restorations. Personalized instruction and ongoing evaluations by our expert instructors will ensure that you receive focused guidance on the areas where you need the most improvement.

The number and type of procedures you perform will depend on your skill level, surgical experience, the time required to successfully complete each procedure and your performance, as continually evaluated by the course instructors, during the course. Our expert faculty will continuously assess your performance, tailoring the learning experience to maximize your progress and build your confidence in performing full arch surgeries effectively.

Every morning, on the days of live patient surgery, we have a short lecture and a meeting with all the doctors to review the treatment plan and medical history for the patients that you will be treating that day. In that moment, with the X- Rays in hand, we evaluate the cases and discuss the best treatment plan and approach for each patient.

## FACULTY

You will have the advantage of being trained by oral/maxillofacial surgeons and Implant Specialist. Our faculty has been involved in dental humanitarian missions, academic exchanges, and specialized in the field of oral implantology for more than 30 years. Please click [HERE](#) to learn more about our Faculty.

## SCHEDULE

The program is 4 full days. The first day will consist of Lectures and hands on workshops on suturing techniques and dental implant placement protocol and drill sequencing. The following 3 days are dedicated to Live Patient Surgery. We require that you arrive to the course destination one day before the start of the course.

## HOW TO REGISTER

Please provide the following items via email to [itgolive@gmail.com](mailto:itgolive@gmail.com) or fax to (949) 460-0042.

1. Copy or resume/cv
2. Copy/picture of your Dental School Diploma/Certificate
3. Copy/picture of valid dental license
4. Copy/picture of valid CPR certification
5. Complete the online surgical survey via the following link:  
<https://forms.gle/LXfYfAGdoRg2cngh6>
6. Copy of completed course registration forms
7. Copy of signature on last page of ITC Seminars Handbook

These documents must be completed and submitted to ITC Seminars to secure your spot in the Live Patient Program and to enable the local Dental University to issue a temporary dental permit, granting you legal authorization to practice dentistry under the country's jurisdiction.

Please do not hesitate to contact me. I will be glad to answer all your questions.

Best Regards,

**Alex Lopez**
