

SINUS LIFT LIVE PATIENT PROGRAM

PROGRAM OVERVIEW

This comprehensive, 4-day live patient course is designed to provide participants with a complete mastery of sinus lift surgery, covering everything from foundational skills to advanced techniques. Throughout this intensive course, participants will perform **sinus lift** surgeries under the guidance of implant experts, including oral and maxillofacial surgeons and implant specialists who have over 3 decades of dental implant surgical experience. This program is funded by ITC CARES, a 501(c)(3) tax-exempt nonprofit organization. All costs associated with participation in this program are tax deductible donations that are directly used to fund this program.

UPON COMPLETION, YOU WILL BE ABLE TO:

- Provide diagnosis, prognosis and properly sequenced comprehensive treatment plans.
- Apply the recommended guidelines for a safe and appropriate dental implant placement.
- Perform advanced sinus lift procedures with maximum confidence and competency.
- Perform comprehensive examinations, collect clinical data, and document the patient's dental and medical condition.
- Understand the indications, guidelines and surgical protocols for sinus bone grafting: lateral and crestal approach.
- Perform sinus bone grafting with delayed and simultaneous implant placement.
- Understand the anatomy, biology and wound healing of sinus bone grafting.
- Recognize, manage and prevent intraoperative and postoperative complications associated with sinus bone grafting.

WHY ITC SEMINARS?

- We are the only Dental CE provider in the world to have academic exchange partnerships with International Universities. All of ITC Seminars' Live Patient Programs are taught and led inside universities.
- Thanks to our joint partnership with International Universities, all course participants receive a provisional temporary dental license to be able to treat patients internationally and for protection from any liability. We are the only Dental CE Provider to provide course participants with legal authorization and a temporary license to practice dentistry internationally.
- Our International Live Patient Programs are limited to only 6 participants for maximum training, supervision, guidance, and course participation.
- Our teaching ratio is 1:2 for optimum learning & dedication.

- Our patients are guaranteed to be 100% restored. All course participants will receive a follow up report that includes images of all the cases they treated during the course fully restored.
- This Live Patient Program is worth 40 CE hours and is certified by the ADA (CERP Certified), AGD (PACE certified), Dental Board of California, and Dental Board of Florida.
- All participants will be evaluated by our faculty throughout the entirety of the program to highlight and reinforce growth edges and ensure maximum confidence and competence in dental implant treatment planning and implant surgery upon graduating from the program.
- We ensure scientific integrity and are free of commercial bias.
- All dental implant materials and components fulfill all international, local, state, and government requirements to be used on live patients.

| • Piezo Handpiece | • Lunch for 4 days |
| • Bone grafting material | • Local Transportation |
| • Surgical instruments | |

SURGERIES PROMOTED

The following are the procedures you may perform in the Sinus Lift Live Program:

- Sinus Lift Lateral Window Approach
- Sinus Lift Intra-Crestal Approach
- Simultaneous implant placement
- Allograft Bone Block
- Bone Grafting
- Growth factors (PRP/PRF/IPRF-sticky bone) preparation techniques
- Suturing Techniques

WHAT TO EXPECT ON THIS PROGRAM?

You will encounter a variety of sinus lift cases and related surgical procedures. All patients are preselected, thoroughly screened, and evaluated in advance for each course participant.

Our Sinus Lift Surgery course is designed to help you master the essential foundations of sinus augmentation, from incision and flap design to sinus membrane elevation and grafting techniques. Through full hands-on training, you will be guided through each critical step, ensuring a comprehensive understanding of the skills required for successful sinus lift procedures. Personalized instruction and ongoing assessments by our expert instructors will provide focused guidance on areas where you need the most improvement.

The number and type of procedures you perform will depend on your skill level, surgical experience, the time required to successfully complete each procedure and your performance, as continually evaluated by the course instructors, during the course. Our expert faculty will continuously assess your performance, tailoring the learning experience to maximize your progress and build your confidence in performing sinus lift surgeries effectively.

Each morning on live surgery days, we start with a short lecture and a meeting with all participants to review the treatment plan and medical history for that day's patients. Together, we evaluate cases using X-rays to discuss the best treatment plans and approaches for each patient.

FACULTY

You will have the advantage of being trained by oral/maxillofacial surgeons and Implant Specialist. Our faculty has been involved in dental humanitarian missions, academic exchanges, and specialized in the field of oral implantology for more than 30 years. Please click [HERE](#) to learn more about our Faculty.

SCHEDULE

The program is 4 full days. The first day will consist of Lectures and hands on workshops on suturing techniques and dental implant placement protocol and drill sequencing. The following 3 days are dedicated to Live Patient Surgery. We require that you arrive to the course destination one day before the start of the course.

HOW TO REGISTER

Please provide the following items via email to itgolive@gmail.com or fax to (949) 460-0042.

1. Copy or resume/cv
2. Copy/picture of your Dental School Diploma/Certificate
3. Copy/picture of valid dental license
4. Copy/picture of valid CPR certification
5. Complete the online surgical survey via the following link:
<https://forms.gle/LXfYfAGdoRg2cngh6>
6. Copy of completed course registration forms
7. Copy of signature on last page of ITC Seminars Handbook

These documents must be completed and submitted to ITC Seminars to secure your spot in the Live Patient Program and to enable the local Dental University to issue a temporary dental permit, granting you legal authorization to practice dentistry under the country's jurisdiction.
